Anti Money Laundering Solution

Data Networks Pvt. Ltd.

Version 1.1.0

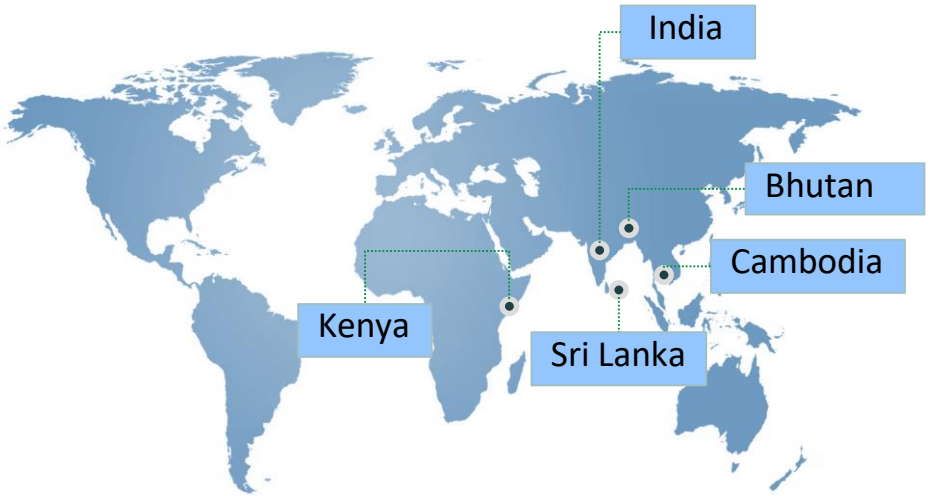
Overview

1. Data Networks, is a provider of innovative software Solutions and Services for the Banking and Financial services industry.

2. With a mission to drive digital transformation, we empower banks, credit unions, and other financial institutions to enhance customer experiences, streamline operations, and maintain regulatory compliance.

3. Our cutting-edge solution is designed to meet the unique needs of the banking sector, enabling seamless integration, robust security, and scalability.

Our Presence



Why We Exist

Vision

To be a trusted partner in the banking sector's digital journey, fostering innovation, security, and agility across financial institutions worldwide.

Mission

To deliver secure, scalable, and user-centric banking software solutions that enable financial institutions to adapt to a rapidly evolving digital landscape and offer superior services to their clients.

Need for Anti Money Laundering Solution

Origination of Funds

- Hawala
- Drug trafficking
- Smuggling
- Terrorist activities

Usage of Funds

- Used for Illegal activities and Terrorism

Channels for Transfer

- Channels used are Banks and Financial Services

Risks for banks and FIs

- Reputation Risk
- Bankruptcy Risk
- Regulator Penalty
- Risk of losing Customer Loyalty

Need for AML Solution

- To tackle all risks
- Regulatory reporting (CTR, STR, NPO, CCR etc)
- Avoid penalty for non-compliance

DATA NETWORKS

Requirements and AML offerings

Requirement		Offering
Know Your Customer	• Customer Acceptance Policy • Customer Identification Process • Watch list filtering • Risk profiling	• KYC Management • Blacklist Filtering • Risk Rating
Transaction Monitoring	• Transaction monitoring (cash/online) • Suspicious transaction monitoring	• Automatic monitoring and detection • Rule based Engine • Case Management
Reporting and Intelligence	• Reporting to regulator • CTR, STR, CCR	• Report Generation • OLAP and Analytics • Data Import and Export

Data Networks AML: High Level Product Capabilities

1. Onboarding & eKYC
2. Dynamic Risk Scoring
3. Real-time & Batch Monitoring
4. Sanctions & PEP Screening
5. Case Mgmt & Investigations
6. Regulatory Reporting
7. Dashboards & KPIs
8. Integration & Secure Data Lake

On-Boarding KYC

- Data capture: OCR, Document Verification
- Identity Proofing: National ID/Passport
- Beneficial Ownership Capture
- Risk scoring: Occupation, Geography, patterns

Sanctions & PEP Screening

- Sources: OFAC, UN, EU, Interpol, Bhutan lists
- Fuzzy matching, Transliteration handling
- True/False Positive Classification
- Automated List refresh + Audit Trail

Transactions Monitoring

1. Rule-based thresholds, Velocity, Anomalies
2. **Scenarios**: Structuring, rapid in-out, circular flows
3. Real-time + nightly batch checks
4. **Example:** Deposits > X in 24 hrs + Transfer to high-risk country Y → Alert

Case Management & Investigations

- Alert Queue, Triage, Escalation
- Evidence attachments
- SAR/STR Creation
- Audit Trail & Access control
- SLA Timers & Supervisor Approvals

Reporting & Dashboard

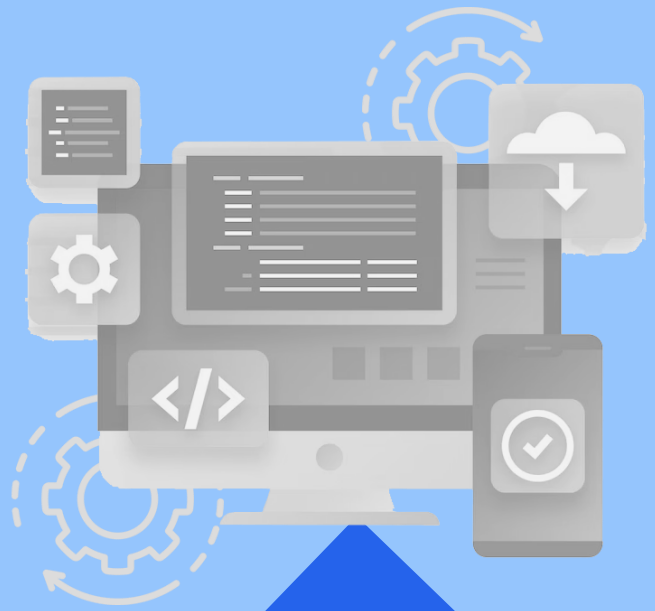
KPIs: Open alerts, time-to-close, SARs filed

Reports: Daily, Weekly, Monthly CTRs

Export: PDF, Excel, XML

System Architecture

We have actively invested in developing a framework on top of .NET and .NET CORE to achieve rapid development.



Layers

- ✓ Data Integration
- ✓ Data Lake and ETL
- ✓ Detection ; Rules & ML
- ✓ Case MGMT & UI
- ✓ Reporting & Audit
- ✓ API Gateway

Deployment

- ✓ Cloud -native or On-Prem

Bhutan Specific Examples

Scenario:

Trading company receives multiple inward remittances (structured under CTR threshold), wires abroad soon after

Detection:

Pattern of inward + rapid outbound, mismatched invoices

Mitigation:

EDD on counterparties, linking trade docs to payments, velocity rules

Bhutan AML Framework

- Governed by **Royal Monetary Authority (RMA)**
- CTR threshold: **Nu. 500,000+**
- STR required for **Suspicious/Unjustified Transactions**
- PEPs require **Enhanced Due Diligence**
- **Record Retention**: Minimum 5 years
- **Sanctions Screening**: UN, domestic, and RMA lists

Banking Challenges In AML

High Transaction Volumes	→	Risk of missing STRs
Manual KYC	→	Delays in onboarding
Legacy Systems	→	Poor Integration with RMA
High False Positives	→	Wasted Investigation Time

Data Networks – AML Engine

- Data Ingestion: Core banking, mobile wallets, remittance systems
- Detection Engine: Rule-based + machine learning
- Case Management: Escalation, SAR filing, audit trails
- Reporting Tools: Auto-generated CTRs/STRs

API Gateway: Seamless integration with RMA

Data Networks Impact -Banking Metrics

Before Data Networks	After Data Networks
STR Filing Time: 3–5 days	<24 hours
False Positive Rate: 40%	<10%
KYC Onboarding Time: 2–3 days	<1 day
Audit Readiness: Manual	Instant reports

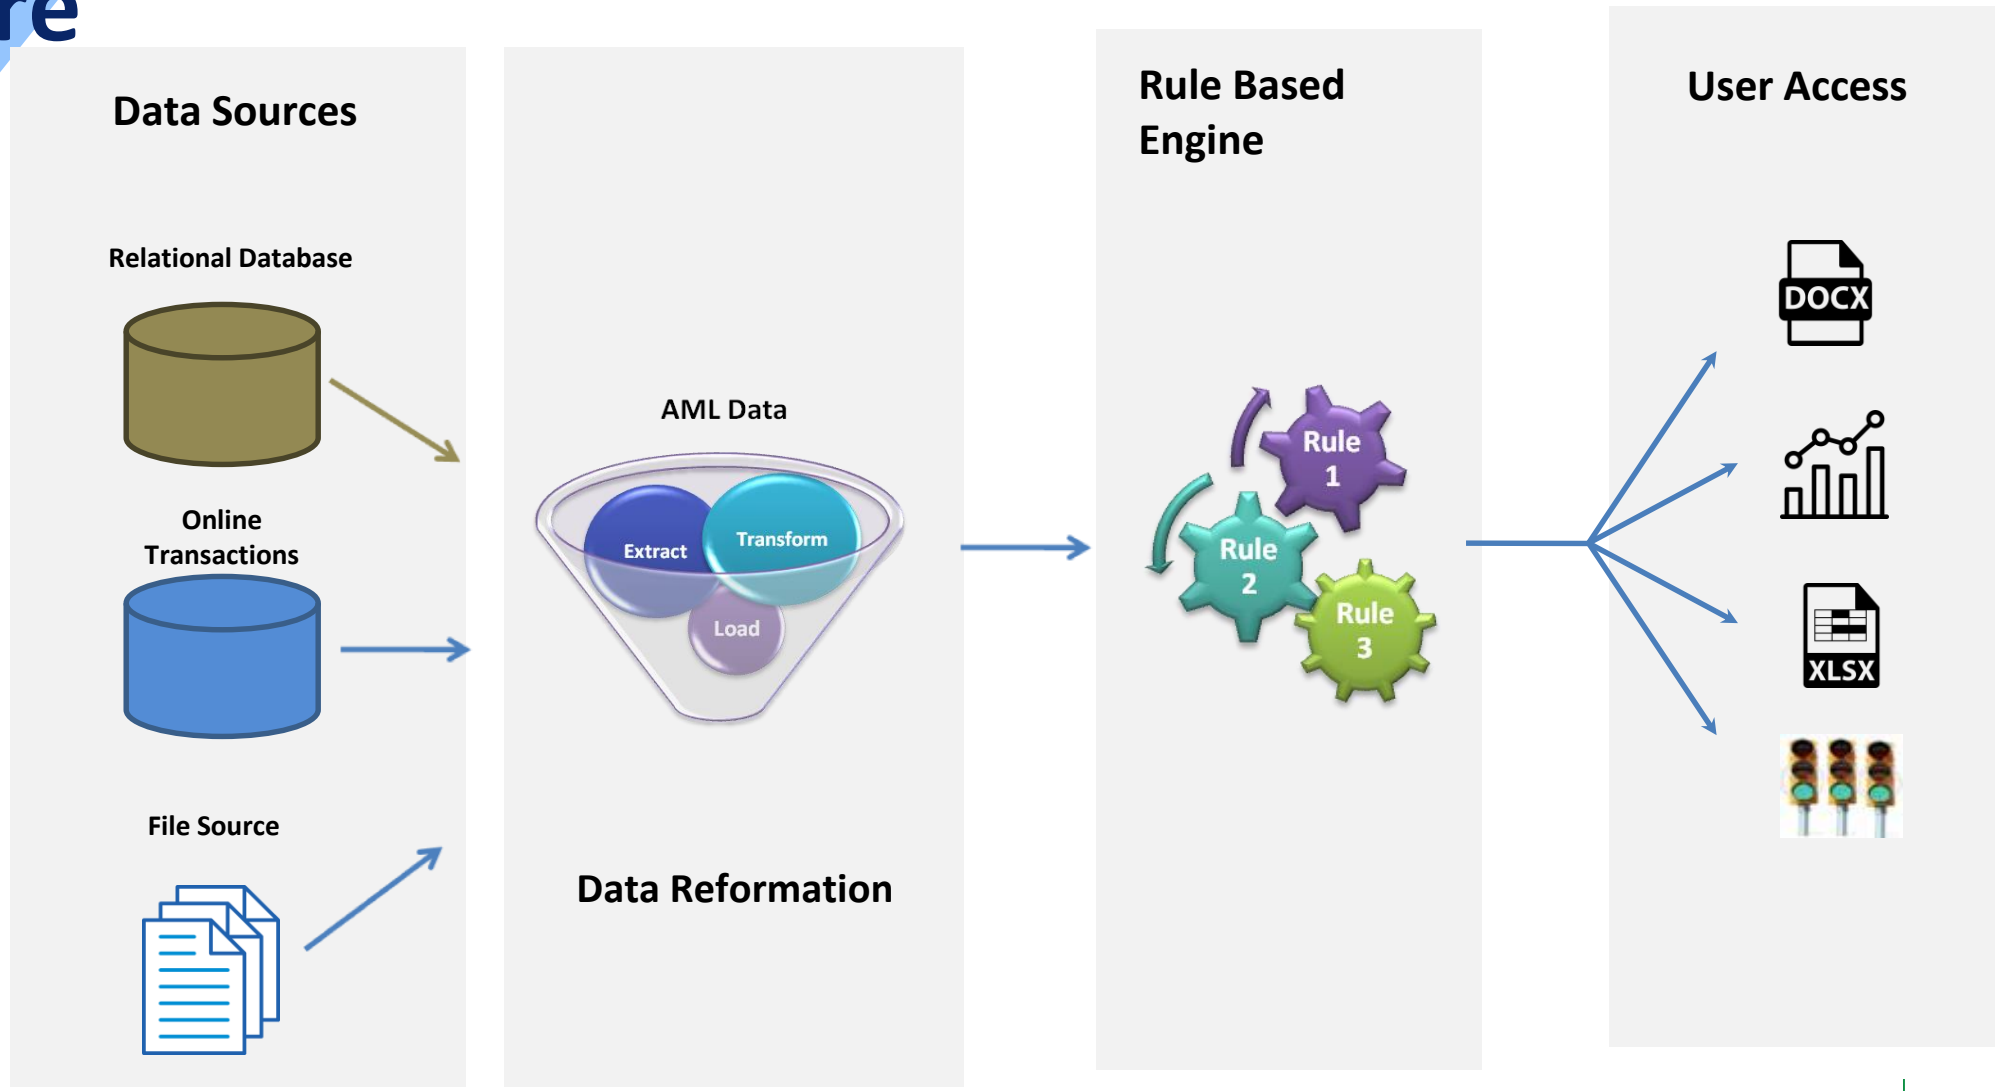
Bhutan Bank Case Study

Case: Mid-sized bank in Bhutan struggled with manual STR filings and inconsistent KYC.

After Data Networks:

- STRs auto-filed within 24 hours
- False positives reduced by 75%
- Seamless integration with RMA systems
- Impact: Full compliance and improved efficiency.

Solution Architecture



Reporting & Dashboard Engine

Data Network's Visual Intelligence Suite

Real-Time Business Monitoring, Dashboard, MIS & Regulatory Reporting

- An Integrated Data warehouse and Analytics Engine
- Aggregated Structure and un-structure data from all Banking Modules
- Enables Powerful BI and MIS and Regulatory Reporting
- Centralized Repository for accurate decision making
- Single Source of Truth
- Inproves Data Quality, Security and Audit readiness
- Reduces Manual Reports compilation

Why Choose Data Networks?

Industry Expertise

Extensive experience in developing and deploying banking solutions, since 1998, with good knowledge of financial regulations and standards.

Customer-Centric Approach

Focus on user-friendly interfaces and customer experience to help banks foster trust and loyalty.

Scalability and Flexibility

Modular solutions that can grow with your organization, adapting to market changes and technological advancements.

Security Focused

Our solutions are built with security as a priority, with end-to-end encryption, secure access controls, and regular security audits.

Dedicated Support

Comprehensive support teams and a client success program ensure smooth deployment and ongoing maintenance.
